

CPC Multi-Purpose Tractor Transmission Fluid

- CPC Multipurpose Tractor Transmission Fluid is manufactured from highly refined paraffinic base oils and formulated with a variety of special additives. The fluid possesses the appropriate viscosity, strong oxidation resistance, and excellent abrasion resistance and capacity of water retention. It is suitable for the lubrication/brake of various agricultural tractors, farming machines, or common industrial construction machinery, which require a common oil for the hydraulic, transmission, differential, or wet brake systems.
- The fluid was successfully applied in field trial of all kinds of tractors in Taiwan.
- The fluid meets the specifications of John Deers J20A, Ford M2C-134 B/C, Massey-Ferguson Permatron III, Allison C3, etc. for tractor transmission oils.
- Packages: (1) 200 liter drum
(2) 19 liter pail
- The typical data are listed as follow:

SAE Viscosity No.	30
Sp. Gr., 15.6/15.6°C, D4052	0.8913
Viscosity Kin., cSt @ 40.0°C, D445	102.0
@ 100°C, D445	12.45
Viscosity Index, D2270	115
Viscosity Kin., cSt @ -17.8°C, D445	10,200
Pour Point °C, D6749	-15
Flash Point, COC, °C, D92	242
Color, D1500	2.5
Base Number, mg KOH/g, D2896	10.1
Product No.	LB55700

Note: Typical properties are based on standard tests under laboratory conditions. Variations that do not affect product performance are to be expected during normal manufacture. Please consult your local CPC representative if you have any questions.
