

CPC Prediluted Extended-Life Super Antifreeze

Coolant

- In accordance with ASTM D3306、D4985、GM 6043M、GM 6277M and JIS K 2234, this product is designed for the radiator cooling system of gasoline, diesel, marine and stationary engines.
- This product is formulated by advanced anti-corrosion technology and provide the outstanding performance listed as follow:
 - Excellent metal protection extending the service intervals of the radiators draining to save the maintenance cost and time.
 - Good compatibility with conventional type coolants and easy change out procedure for different types of coolants.
 - Outstanding heat transfer efficiency reducing the incidence of overheating to extend the service life of engines and radiator systems.
- Packages: (1) 200 liter drum
(2) 4 liter bottle, 4 liter*4 case
- The typical data are listed as follow:

Sp. Gr., 15.6/15.6°C, D4052	1.081
PH, D1287	8.28
Pour Point, °C, D97	-57
Appearance	Yellow
Product No.	M 10027

Note: Typical properties are based on standard tests under laboratory conditions. Variations that do not affect product performance are to be expected during normal manufacture. Please consult your local CPC representative if you have any questions.
