IV. FIRST AID MEASURE

Emergency Procedures

- Inhalation:
When safe to enter area, remove from exposure immediately. If breathing is difficult, give oxygen. If breathing ceases, use an oxygen rescuer or similar device to perform artificial respiration. Seek immediate medical attention.
- Skin Contact:
Remove contaminated clothing, jewelry and shoes immediately. Wash with soap or mild detergent and large amounts of water until no evidence of chemical remains (at least 15~20 minutes). If irritation or adverse symptoms develop, seek medical attention.
- Eye Contact:
Flush eyes immediately with running water for at least fifteen minutes, occasionally lifting upper and lower lids, until no evidence of chemical remains. Seek immediate medical attention.
- Ingestion:
If vomiting occurs, keep head lower than hips to help prevent aspiration. Get immediate medical attention.

Protection of First-aiders:

1. Use gloves resistant to the material being used (ie neoprene or nitrile rubber).
2. Use chemical goggles and face shield.
3. Use NIOSH approved supplied air respirator.
