## IV. FIRST AID MEASURE

### Emergency Procedures:

- Inhalation :  
Remove personnel from exposure area to fresh air immediately. If breathing is difficult, give oxygen. If breathing ceases, use a oxygen rescuer or similar device to perform artificial respiration. Get medical attention immediately.
- Skin Contact :  
Remove contaminated clothing, jewelry and shoes immediately. Wash with soap or mild detergent and large amounts of water until no evidence of chemical remains ( at least 15~20 minutes). If irritation or adverse symptoms develop, seek medical attention.
- Eye Contact :  
Flush eyes immediately with running water for at least fifteen minutes, occasionally lifting upper and lower lids, until no evidence of chemical remains. Get medical attention immediately.
- Digestion :  
If vomiting occurs, keep head lower than hips to help prevent aspiration. Get medical attention.

**Suitable Extinguishing Media:** regular dry chemical, carbon dioxide, water, regular Foam.  
**Large fires:** Use regular foam or flood with fine water spray.

**Specific Hazards:** Incomplete burning can produce carbon monoxide and/or carbon dioxide and other harmful products.

**Special Fire Fighting Procedures:**

1. Firefighters should wear proper protective equipment stay upwind.
2. Move container from fire area and shut off source if it can be done without risk.
3. Cool containers with water spray until well after the fire is out.
4. Do not scatter spilled material with high-pressure water streams.
5. Keep unnecessary people away, isolate hazard area and deny entry.
6. Avoid inhalation of material or combustion by-products.

## VI. ACCIDENTAL RELEASE MEASURES

**Personal Precautions:**

1. Avoid heat, flames, sparks and other sources of ignition.
2. Stop leak if possible without personal risk.
