Emergency Procedures:

• Inhalation:

Remove personnel from exposure area to fresh air immediately. If breathing is difficult, giveoxygen. Ifbreathingceases, use a oxygen rescuer or similar device to perform artificial respiration. Get medical attention immediately.

• Skin Contact:

Remove contaminated clothing, jewelry and shoes immediately. Wash with soap or mild detergent and largeamounts of water until noevidence of chemical remains (at least $15 \sim 20$ minutes). If irritation

oradversesymptomsdevelop, seek medical attention.

• Eye Contact:

Flush eyes immediately with running water for at least fifteenminutes, occasionally lifting upper and lower lids, until noevidence of chemical remains. Get medical attention immediately.

• Digestion:

If vomiting occurs, keep head lower than hips to help prevent aspiration. Get medical attention.

V. FIRE FIGHTING MEASURES

Suitable Extinguishing Media: regular dry chemical, carbon dioxide, water, regular Foam.

Large fires: Use regular foam or flood with fine water spray.

Specific Hazards: Incomplete burning can produce carbon monoxide and/or carbon dioxide

and other harmful products.

Special Fire Fighting Procedures:

- 1. Firefighters should wear proper protective equipment stay upwind.
- 2. Move container from fire area and shut off source if it can be done without risk.
- 3. Cool containers with water spray until well after the fire is out.
- 4. Do not scatter spilled material with high-pressure water streams.
- 5. Keep unnecessary people away, isolate hazard area and deny entry.
- 6. Avoid inhalation of material or combustion by-products.

VI. ACCIDENTAL RELEASE MEASURES

Personal Precautions:

- 1. Avoid heat, flames, sparks and other sources of ignition.
- 2. Stop leak if possible without personal risk.
- 3. Reduce vapors with water spray.

Environmental Precautions:

- 1. Eliminate all open flame in vicinity of spill or released vapor.
- 2. Stop the source of the leak or release.
- 3. Clean up releases as soon as possible.
- 4. Contain liquid to prevent further contamination of soil, surface wateror groundwater.

Methods for Cleaning Up:

- 1. Clean up small spills using sand or other non-combustible material.
- 2. Collect spilled material in appropriate container for disposal.
- 3. Wherefeasible and appropriate, remove contaminated soil.
- 4. Follow prescribed procedures for reporting and responding to larger releases.
