

CPC Fully Synthetic Coolant, Super Concentrate

- CPC Fully Synthetic Coolant-Super Concentrate is an oil-rejecting synthetic coolant concentrate formulated for cutting metals and alloys, including cast iron, steels, stainless, and nonferrous materials.
- This synthetic coolant concentrate contains no DEA, sodium nitride, chlorinated, sulfurized, or phosphorous-containing additives.
- This coolant concentrate is fortified against microorganism attack through the incorporation of a bactericide/fungicide package.
- The following properties can be expected to be achieved in CPC Fully Synthetic Coolant-Super Concentrate: excellent corrosion inhibition, excellent water hardness stability, and low foaming tendency.
- 5% dilution or less of this coolant concentrate is not expected to cause eye or skin irritation. For working safety, always wearing rubber gloves and safety goggles when operating are recommended.
- Packages : (1) in bulk
(2) 200 liter drum
- The typical data are listed as follow:

Appearance	Clear Light Yellow
Specific Gravity, 15.6/15.6°C	1.061
Viscosity, Kin., cSt @40°C	18.72
Color, D1500	L1.5
pH	10.3
TAN, mgKOH/g	85.79
Alkalinity, mgKOH/g	17.68
Product No.	LB73666

Note: Typical properties are based on standard tests under laboratory conditions. Variations that do not affect product performance are to be expected during normal manufacture. Please consult your local CPC representative if you have any questions.
